

Hardware Requirements

It is important to note that the time required to process your documents is dependent upon the capabilities of the machine where EDGE is installed. The following are the minimum requirements for your PC workstation.

RAM.....4 GB

Hard Drive.....50 MB- Programs and supporting files

Operating system.....Windows 7, 8 & 10

Internet access.....This is for support and updates

We recommend HP laser printers for use with the EDGE system. Ask your salesperson for additional information.

Miscellaneous Information

- **Test Files:** Test data will be required for all documents you will be producing. The files should be created in the same environment as what you will generate in a production environment. In order to meet your implementation date(s) please provide your test data as soon as possible. If you need help with transmitting data to us, please call 1-877-334-3362 and ask for a Technical Support Representative.
- **Existing Forms:** Please provide us with copies of all existing forms that you will be producing with your EDGE system. Please mark up your existing form with any required changes and submit it to bbickham@edgedocllc.com.
- **Camera-Ready Logos and Artwork:** If you will be using any logos or other artwork with the EDGE system, please submit a camera-ready sample or a standard image (preferably .jpg, .gif, .png). A logo with a white background is preferable for a sharp digital image, if possible.
